## Work Experience

### Frontend developer

#### Summer'21 OSPP @Apache APISIX | June 2021 - Present

- I have been selected in OSPP'21 in very first when it arrived to india.
- I have added new plugin UI forms from JSONSchema for apisix-dashboard plugins.
- Added husky Pre-commit implementation to main repo.
- Also have maintained the documentation part
- Extras: dark theme added by me.

### Frontend developer/ E2E Tester

#### Shenzhen Zhiliu technology Co.,Ltd (China)| June 2021 - Present

Manage and visualize enterprise-critical business traffic such as APIs and microservices to accelerate enterprise business decisions through big data and artificial intelligence (AI)

- Working as a software testing intern and frontend developer.
- I have added Husky pre-commit and worked in plugin pages ,added fields and applicable cypress test cases.
- Worked in VM (Azure) to run api based on china IP via docker

### Full stack developer

#### Buddha Industry, New Delhi — Full stack developer March 2020 - June 2020

Its a online marketing website for purchasing jute bags in bulk for whole sale markets.
